TEMPUS - 1

Wake Up to Perfect Radio

Wake up to perfect radio with PURE TEMPUS-1, a bedside radio with an innate sense of timing. Offering the same digital-quality, interference-free audio as EVOKE-1, the world's most popular DAB radio, TEMPUS-1 also offers a host of new features that make it the perfect bedside companion.

A sleep timer and programmable alarms enable you to fall asleep listening to one station and wake up to another (or a simple alarm tone if you prefer). You can even set two different alarm times, each with different settings for weekdays and weekends. Innovative SnoozeHandle™ technology means that when the alarm goes off a simple touch on TEMPUS-1's handle sets the alarm to snooze or, at other times, illuminates the full-screen clock for easy night-time viewing.

Featuring digital optical and analogue outputs for connection to your hi-fi as a DAB tuner, TEMPUS-1 also has a sophisticated record timer, enabling you to record your favourite programmes to a MiniDisc or CD-R recorder.

Ultimate Bedside Radio

Multiple easy to operate alarms and adjustable sleep timer. Touch-sensitive SnoozeHandle™ for alarm snooze and backlit night-time clock display.

Easy to Use

Clear easy-to-read display with variable brightness. Ten presets. Time and date functions automatically set and updated from broadcast time signal.

DAB Quality & Features

High-quality, interference-free digital audio. Up to twice as many stations available in many areas as FM. Easy autotune. Select stations by name. Scrolling digital text display shows song titles, programme information and news supplied by broadcasters.

"There aren't many better things to wake you up in the morning."

Boys Toys, Gold Award Winner

"Excellent and easy to use"

Susan Hoyland, Essex

"A truly impressive package and well worth the asking price"

International Smarthouse

"Absolutely superb"

Adrian Murray, Antrim

"TEMPUS-1 may not be the first bedside DAB radio, but it's definitely the best."

T3

"Our favourite new radio."

Radio Listener's Guide

"Well sorted and rather clever; definite bedside appeal"

What Hi Fi Sound & Vision

ALL THE BENEFITS OF DAB

The DAB transmission standard provides high-quality, interference-free digital audio without the hiss, crackle and fade of AM/FM broadcasts. One touch autotune locates all available DAB stations. Select stations by name and list them alphabetically or by most listened to. Scrolling text shows additional data such as song titles, artists' names, programme descriptions, news headlines and more.

WIDE VARIETY AND CHOICE OF STATIONS

Up to twice as many stations are available in many areas as via FM. UK stations broadcast digitally include national BBC Radios 1-4, BBC Radio 5 Live, Classic FM, talkSPORT and Virgin Radio, plus local and unique-to-digital stations.

DUAL ALARMS

Two easy to set alarms mean you can have different alarms for you and your partner, different alarm settings for weekdays or weekends, or set a backup alarm just in case you sleep through the first. Alarms can be set to different stations or to a simple alarm tone.

SNOOZEHANDLE™

One touch SnoozeHandle to snooze the alarm or illuminate the full-screen clock for night-time viewing.

SLEEP BUTTON

Sleep button switches TEMPUS-1 off automatically after 15, 30, 45, 60 or 90 minutes. Set the alarm as well and you can fall asleep to one station and wake up to another.

AUTOMATICALLY SET CLOCK

Clock is automatically updated from a broadcast DAB time signal, so you don't have to set it or worry about resetting it when the clocks go forward or back.

RECORD TIMERS

Nine record timers allow you to record your favourite radio shows to a separate recording device. Set regular daily, weekdays only or weekend only record times so that you never miss your favourite programmes, or one-off record times for special programmes. For timed recording you will need a recorder with an optical input that supports sync-record, such as a MiniDisc or CD-R recorder, or a recorder with a timer of its own.

USB CONNECTOR

USB connector enables you to download software upgrades from an internet-connected PC, enabling TEMPUS-1 to support future updates to the DAB service.

TECHNICAL SPECIFICATIONS

Specifications: Stereo digital radio (stereo output requires optional auxiliary speaker, headphones or external amplifier) with full Band III reception capability, for reception of all UK DAB broadcasts.

Frequency range: Band III (174 - 240 MHz), with fast autotune feature.

Alarm/Clock functions: Two alarm settings with separate station or tone selection and optional daily, weekday or weekend settings. SnoozeHandle™ controls snooze function and clock display. Configurable sleep timer: Nine record timers for use with separate recording device.

Speaker: Full-range 3" drive unit.

Input connectors: RF F-connector for 75 Ohm DAB aerial connection (telescopic aerial supplied). USB connector for software upgrades. Power input.

Output connectors: 3.5 mm sockets for stereo analogue audio output, headphone output and auxiliary speaker connection. Optical S/PDIF output for stereo digital audio output.

Controls: Power on/standby, volume, tune/select, autotune, info, menu, sleep, 10 presets.

LCD display: High resolution white on blue LCD display with selectable brightness levels.

Power supply: 240V AC to 12V DC external power adapter.

Approvals: CE marked. Compliant with the EMC and Low Voltage Directives (89/336/EEC and 73/23/EEC).

Dimensions (mm): 210 (w) x 175 (h) x 110 (d).

Aerial: Telescopic aerial supplied.

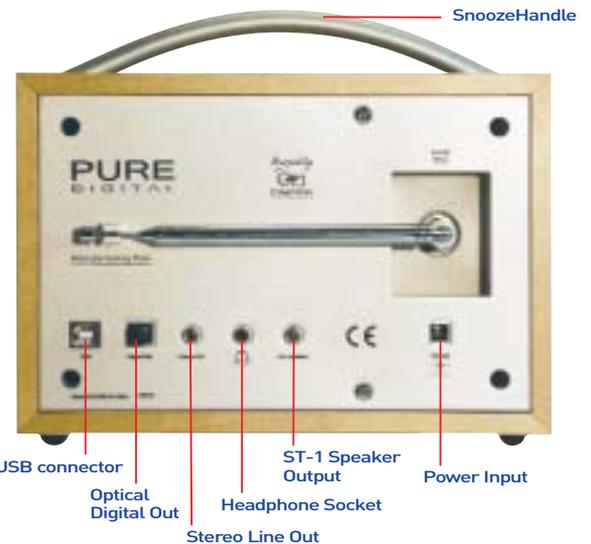

Technical support: Telephone support hotline, e-mail and Internet web site.

Warranty: Two years.

OPTIONAL ST-1 SPEAKER FOR STEREO UPGRADE

- Easy connection to your TEMPUS-1
 - Matching full-range 3" drive unit
 - Ported for bass enhancement
 - Solid maple veneer casing with metallic speaker grille
- TEMPUS-1 and the ST-1 auxiliary speaker use real wood veneer. As with all natural wood products, some variation in colour is to be expected.
