EVOKE-1^{XT}

The Perfect Kitchen Radio

Based on the multi-award-winning EVOKE-1, the UK's best selling radio, EVOKE-1^{XT} offers the same easy-to-use DAB features such as station selection by name and scrolling text showing song titles, artist information, news updates and sports results.

Audio fidelity has been refined with a new hi-fi quality drive unit and active audio filtering to fully exploit the crystal-clear DAB sound that has won over radio listeners everywhere. We've engineered EVOKE-1^{XT} to be far and away the best sounding radio in its class. Visit one of our network of dealers to judge for yourself.

The stylish EVOKE-1^{XT} now features radius-edged veneered casework and a large, clear white-on-blue display. To complete this great looking package we've also added a handy clock display, a tone/radio alarm and a kitchen timer.

The UK's best selling radio just got better.

Wider Station Choice

Up to 55 DAB stations available, including many digital only stations such as BBC7, Radio 5 Live Sports Extra, BBC 6 Music, PrimeTime, Core and Planet Rock.

Easy to Use

Select station by name, scrolling text display, one touch autotune, and interference-free digital sound quality.

Great for the Kitchen

Easy to use kitchen timer with dedicated button. Time automatically updated from the broadcast signal. Clock display in standby mode.

DAB FOR QUALITY AND EASE OF USE

The DAB transmission standard provides high-quality, interference-free digital audio without the hiss, crackle and fade of AM/FM broadcasts. One touch autotune locates all available DAB stations. Select stations by name and list them alphabetically or in the order you listen to them most. Scrolling text shows additional data such as song titles, artists' names, programme descriptions, news headlines and more.

WIDE VARIETY AND CHOICE OF STATIONS

Up to twice as many stations are available in many areas as via FM. UK stations broadcast digitally include national BBC Radios 1-4, BBC Radio 5 Live, Classic FM, talkSPORT and Virgin Radio, plus local and unique-to-digital stations.

WHITE-ON-BLUE DISPLAY

High-resolution white-on-blue display is clearer and more visible from a distance. Selectable backlight display and brightness adjustment give you complete control. Clock display in standby mode.

CLASS-LEADING AUDIO

EVOKE-1^{XT} offers class-leading audio quality with its custom designed full-range hi-fi speaker and active filters for a natural 'direct-from-the-studio' sound. It is also bass reflex ported for richer more natural reproduction of low frequencies.

KITCHEN TIMER

The handy countdown timer is great for use in the kitchen. Easy to set using a dedicated timer button, this feature means the end of overcooked pasta and hard boiled eggs.

ALARM FUNCTION

Easy to use tone or radio alarm. Time is automatically updated from the DAB signal, so you don't have to set it or worry about resetting it when the clocks go forward or back.

USB CONNECTOR

Whether it's enhancements to the DAB standard or new features from PURE, the USB connector enables you to keep your EVOKE-1^{XT} up to date with updates from www.pure.com.

OPTIONAL XT-1 SPEAKER

- Complements your EVOKE-1^{XT} in style and finish
- High-performance matching full-range 3" drive unit
- Bass reflex ported
- Solid wood cabinet and metallic grille
- Supplied with 3m cable

Please note that EVOKE-1^{XT} and the XT-1 auxiliary speaker use real wood veneer. As with all natural wood products, some variation in colour is to be expected.

TECHNICAL SPECIFICATIONS

Specifications: Stereo digital radio (stereo output requires optional auxiliary speaker, headphones or external amplifier) with full Band III reception capability, for reception of all UK DAB broadcasts. Compliant with ETS 300 401 and capable of decoding all DAB transmission modes 1-4 up to and including 256 kb/sec.
